

LESSON 15 SAFETY CONCERNS

DRILLED SHAFT FOUNDATION INSPECTION

DECEMBER 2002

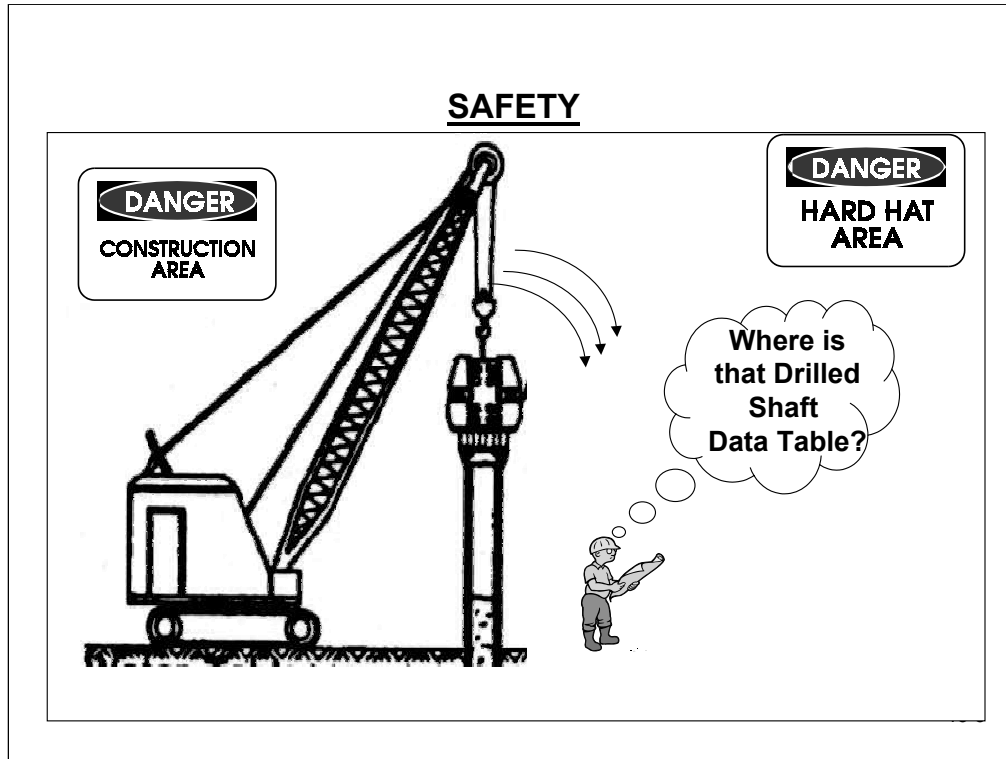

Participant Workbook

LESSON 15

SAFETY CONCERNS

15-3

SAFETY

This brief session on safety is not intended to replace or serve as any required Federal, State, Local or Corporate training requirement or certification. Its intended use is only for this course and merely to make participants aware of some, not all, safety issues associated with drilled shaft construction.

15-6

Additional safety information may be obtained by contacting one of the below listed.

Deep Foundations Institute (DFI)

120 Charlotte Place, Third Floor
Englewood Cliffs, N.J. 07632
Phone: (201) 567-4232
